

1. When the electronic key enters the exterior detection area all the doors are immediately unlocked for the driver to enter the vehicle?

- a. True
- b. False
- c. Only if the passenger enters the drivers side detection area.
- d. Only if the electronic key matches the key ID code within the vehicle.

2. When leaving the vehicle once the electronic key is detected in the exterior detection area the vehicle can be locked.

- a. True
- b. False
- c. Only when the door handle receives a touch sensor "on" signal.
- d. Only when the door handle receives a touch sensor "off" signal.

3. When does the "Key is not detected" warning appear?

- a. When the electronic key is not found in the passenger compartment area?
- b. When the electronic key is not found in the exterior detection area?
- c. When the electronic key is not placed at close proximity of the dashboard?
- d. When the electronic key is not placed at close proximity of the start button?

4. As a power saving function for the vehicle, if there is no response from the electronic key for 10 days or more the regular request signal transmission interval is lengthened to?

- a. 0.25 seconds
- b. 0.75 seconds
- c. 2.25 seconds
- d. Transmission is suspended.

5. Which sensor uses a Vacuum Chamber?

- a. Speed Sensor
- b. Accelerator Sensor
- c. Fuel Temperature Sensor
- d. Intake Air Pressure Sensor

6. Which sensor can lower exhaust gas emissions?

- a. Speed Sensor
- b. Fuel Temperature Sensor
- c. Correction Resistor & Correction ROM
- d. Accelerator Sensor

7. In a coolant temperature sensor, as the temperature increases the resistance of the thermistor?

- a. Decreases
- b. Increases
- c. Stays the same
- d. None of the above

8. What are the 3 main ECU used in the Radar Cruise System?

- a. Millimeter Wave Radar Sensor, Distance Control ECU & Engine ECU
- b. Millimeter Wave Radar Sensor, Skid Control ECU & Engine ECU
- c. Millimeter Wave Radar Sensor, Distance Control ECU & Brake Actuator
- d. Vehicle Speed Sensor, Distance Control ECU & Engine ECU

9. At what condition does the proximity warning buzzer sound to alert the driver that user operation is necessary?

- a. Constant Speed Control
- b. Deceleration Control
- c. Following Control
- d. Acceleration Control

10. When settings are changed to 'Short' vehicle-to-vehicle distance, what is this distance?

- a. 20 metres
- b. 30 metres
- c. 40 metres
- d. 50 metres
